

# Supporting Our Communities

ConvenientMD's mission is to make good health more convenient for all. Providing great care to patients is only part of fulfilling that mission. We also reinvest in our communities by supporting causes and organizations that support the health and wellness of residents.

## COMMUNITY SPONSORSHIPS

Contributions to community groups like recreation departments, youth sports, community centers, Boys & Girls Clubs, and YMCAs support valuable programming for local communities.

## SCHOOL NURSE PARTNERSHIP PROGRAM

This no-cost program provides free youth physicals and other free care to kids in need. The program also assists schools in accessing medical resources, such as inhalers, EpiPens, and Narcan, and helps school nurses meet their continuing education requirements.

## SCHOLARSHIPS

Scholarships are awarded to local high school seniors pursuing secondary education in healthcare, to support the next generation of healthcare workers.

## CHARITY

Our Charity Flu Shot program donates money to local charities for every flu shot administered at our clinics.

## MISSION TRIPS

ConvenientMD team members travel to different parts of the world to provide medical services and support to areas in need.

## VOLUNTEERING

Team members are encouraged to get involved in group volunteer efforts within the community.
